DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claim~~s~~ 29 is withdrawn in view of the newly discovered reference(s) to Yamauchi (JP 57-190696). Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 29 is rejected under 35 U.S.C. 102(b) as being anticipated by Yamauchi (JP 57-190696).

Yamauchi teaches a composition for removing or otherwise reducing the level of inorganic or organic chemicals in an waste sample (abstract), comprising one or more aerobic or anaerobic iron-reducing microorganisms and a cationic iron compound (abstract).

Allowable Subject Matter

4. Claims 1, 3-14, 20-28 and 31 are allowed.
5. Claim 30 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1, 3-14, 20-28 and 31 are allowed for the reasons previously indicated by the examiner.

Per claim 30, while claim 29 is not allowable for the reasons presented above, in the examiner's opinion, the prior art fails to teach encapsulating the microorganisms within the cationic compound.
